

DIVA LAS VEGAS

All they needed was Respect.
(Just a little bit.)

Approaching the time of life when their lives are filled with ironing, giving recorder lessons and clearing up after their husbands, three women from the English home counties kick out the home made jams, form an Aretha Franklin tribute band and head out on the highway that leads from Watford to Las Vegas, on a journey that teaches them about life, love and what a combination of HRT and a doner kebab can do to your tummy.

Set in a world of fake bands and phoney agents, Diva Las Vegas is a rock and roll ride through hope, ambition and some of the greatest soul music ever recorded. It proves, once and for all, that it ain't never going to be over as long as the fat lady is prepared to keep singing.
